**Red Crew** Aug 30 2022 Red Crew is a first-hand account of U.S. Coast Guard anti-smuggling operations during the early years of the nation's maritime war on drugs. Jim Howe describes his experience as the executive officer of a specialized drug-hunting crew that sailed in

then-state-of-the-art "surface effect ships," a small flotilla of high-speed vessels pressed into the drug war on short notice. In the early 1980s, South Florida and the Caribbean were awash in illicit drugs, with hundreds of smuggling organizations bringing huge loads of marijuana, and later cocaine, into the United States. To fight this epidemic, the Reagan administration led a massive effort to disrupt shore-side gangs while bolstering interdiction activity at sea. To increase the number of days at sea for each surface effect ship, a "multi-crewing" concept was employed, with four teams of sixteen sailors—the Red, Blue, Green, and Gold Crews—rotating among three hulls. Through its first-person narrative, Red Crew offers a rare glimpse into the day-to-day pressures, challenges, failures, and successes of Coast Guard cuttermen as they carried out complex and dangerous missions. Red Crew provides a unique historical view of the early days in the Coast Guard's war on drugs, and is the only book-length history of the diminutive, one-of-a-kind surface effect ship fleet.

**Crisis and Restructuring in East Asia** Jan 23 2022 This book criticizes the widespread view that the 1997 Asian crisis was due to 'crony capitalism' and puts the blame instead on

misguided liberalization. It analyzes the case of Korea's business conglomerates, the chaebol, with particular attention to the car industry, to show how liberalization contributed to the crisis even at the level of the firm. It shows how those firms that had developed innovative capabilities survived the crisis much better than those that had merely expanded into markets opened up by liberalization.
