Just the intern Jan 18 2022 Close friends Medini, Riddhi, and Varun work as student interns for a leading Indian MNC under a five-year scholarship program. During their last year of internship, they end up joining the same project which is led by Garima Kapoor, a shrewd, trailblazing professional. As time passes by, her initial attempts, to pass off as a career-oriented woman who is a victim of office gossip, are nullified when she reveals her biased views and irrational behaviour towards the interns. After the initial shock of Garima's deplorable behaviour has worn off, Medini and her friends learn to navigate through their stressful internship with the guidance of some trustworthy colleagues. Medini's journey is relatable; she's young, hardworking, has friends, and lives on her own in a large city throbbing with opportunities. She struggles with the challenges thrown at her and draws strength from Agastya, a colleague she starts dating. As Medini and her friends wander through the stress of their professional lives, they often wonder if life would get easier or be just as challenging? Would it afford them time for their friends and family or would they remain a slave to their work just like Garima? Sacrifices are to be made and decisions can be hard. Will Medini rise to the challenges or will she cave in?

Intelligence Isn't Enough Apr 28 2020 Master the balance between working on your career and working in it. Intelligence Isn't Enough helps Black professionals make strategic decisions and learn the unspoken rules for success. Recounting the frustration she felt as a young Black woman beginning her career, Carice Anderson knows that many Black professionals are relying on their education and intellect alone to be successful in the workplace. In this book, she empowers young Black

professionals by equipping them with advice and little-known principles of career success from her experiences and interviews with thirty successful Black leaders. Intelligence Isn't Enough is divided into six chapters that guide readers through what Anderson calls the three "major corporate muscle groups": • Knowing yourself- understanding your story and investigating your mindset • Knowing others-building and sustaining important relationships in the workplace • Knowing your environment-analyzing your organization's culture Anderson will teach you how to integrate the knowledge of these three groups to craft an authentic personal brand and communication style that will help you maximize your impact. Using personal stories, quotes, lessons learned, and advice from both the author and Black leaders who have worked in some of the finest institutions across North America, Africa, and Europe, Black professionals will learn tips and tools to strategically chart their career paths and advance in the workplace for lifelong success.

Chinese Labour Law Aug 13 2021 This book provides an overall understanding of Chinese labour law and covers many important issues related to the application of Chinese labour law. Particularly, the book explains the difficult points in Chinese labour law from the perspective of juridical practice. Many typical cases are selected to illustrate the important issues in Chinese labour law. These cases are from the courts in the developed areas in China, where foreign-funded enterprises gather. Also, the book addresses the implications of the Civil Code on the labour law. The latest developments are reflected in the book, which include guidelines related to labour dispute case hearing formulated by the Higher Courts in many provinces, and the guiding cases released by the Supreme Court. Such developments are the reflections of fragmented judicial application of Chinese labour law.

Design Thinking Research Oct 27 2022 This book summarizes the results of Design Thinking Research carried out at Stanford University in Palo Alto, California, USA, and Hasso Plattner Institute in Potsdam, Germany. The authors offer readers a closer look at Design Thinking with its processes of innovations and methods. The contents of the articles range from how to design ideas, methods, and technologies via creativity experiments and wicked problem solutions, to creative collaboration in the real world and the connectivity of designers and engineers. But the topics go beyond this in their detailed exploration of design thinking and its use in IT systems engineering fields and even from a management perspective. The authors show how these methods and strategies work in companies, introduce new technologies and their functions and demonstrate how Design Thinking can influence as diverse a topic area as marriage. Furthermore, we see how special design thinking use

functions in solving wicked problems in complex fields. Thinking and creating innovations are basically and inherently human – so is Design Thinking. Due to this, Design Thinking is not only a factual matter or a result of special courses nor of being gifted or trained: it's a way of dealing with our environment and improving techniques, technologies and life.

Special Advisers Dec 25 2019 Viewers of The Thick of It will know of special advisers as spin doctors and political careerists. Several well-known ministers have been special advisers, among them David Cameron, Ed Miliband, Jack Straw and Vince Cable. People also know about the public relations disasters involving Jo Moore, Damian McBride and Adam Smith. But what is the reality? What do special advisers actually do in government? Who are they, where do they come from, and why are they needed? This book is the most detailed study yet carried out of special advisers. The Constitution Unit's research team, led by Dr Ben Yong and Professor Robert Hazell, assembled a comprehensive database of over 600 special advisers since 1979. They conducted written surveys, and interviewed over 100 special advisers, ministers and officials from the past thirty years. They conclude that special advisers are now a permanent and indispensable part of Whitehall, but are still treated as transient and temporary. The book concludes with practical recommendations for increasing the effectiveness of special advisers through improvements to their recruitment, induction and training, support and supervision, and strengthening their accountability.

Offshore Wind Aug 25 2022 Offshore Wind is the first-ever roadmap to successful offshore wind installation. It provides a ready reference for wind project managers, teaching them how to deal with complications on-site, as well as for financers, who can utilize the text as an easy guide to asking the pivotal questions of petitioning wind project developers. These developers' planning stages will be improved by the book's expert advice on how to avoid wasting money by scoping out and mitigating

potential problems up-front. Wind turbine manufacturers will benefit from insights into design optimization to support cheaper installation and hauling, thereby incurring lower project costs, and helping developers establish a quicker route to profitability. The book sheds light not just on how to solve a particular installation difficulty, but delves into why the problem may best be solved in that way. Enables all stakeholders to realize cheaper, faster, and safer offshore wind projects Explains the different approaches to executing on- and offshore projects, highlighting the economic impacts of the various financial and operational choices Provides practical, proven advice on how tough challenges can be overcome, using real-life examples from the author's experiences to illustrate key issues

When Organization Fails Jul 24 2022 When Organization Fails: Why Authority Matters develops the study of authority as an area of investigation in organizational communication and management. As a research topic, authority has rarely been addressed in depth in the management and organizational communication literature. It is critical, however, to maintaining unity of purpose and action of the organization, and it is frequently cited by organizational members themselves. Utilizing two case studies, examined in depth and based on the accounts of the individuals involved, authors James R. Taylor and Elizabeth J. van Every explore the pathology of authority when it fails. They develop a theoretical foundation that aims to illuminate authority by positioning it in communication theory. This volume sets the stage for a new generation of scholars who can make their reputations as experts on authority, and is intended for scholars and graduate students in organizational communication, leadership, and discourse analysis. It also offers practical insights to consultants and management experts worldwide.

Chinese Maritime Cases Jun 23 2022 This book selects leading, innovative and influential Chinese maritime judgments and presents full translation of them, with brief summary, to the readers so that they can have insights of how the Chinese maritime judges interpret, apply and develop Chinese maritime law in practice. China trades with other states in trillions of USD every year, and about 95% of the cargoes are carried by ocean-going ships calling at hundreds of Chinese ports each single day. Due to the enormous and steadily growing trade volume and shipping activities, foreign ships, companies and persons are often caught by the Chinese maritime law and court. The parties involved and their lawyers are more than ever enthusiastic to study Chinese maritime cases in order to deal with their own cases properly or, if possible, predicate the potential problems and avoid the disputes outright. The book is appealing to and benefits worldwide law students, academics, practitioners and industrial people in the shipping, trade, insurance and financial fields. The book remedies to certain extent the situation that there is lack of authoritative sources available to foreign personnel to look into how Chinese justice system functions.

The KM Cookbook Aug 21 2019 The KM Cookbook serves up a menu of success stories and strategies for organizations wanting to know more about Knowledge Management Standard ISO30401 – whether they intend to pursue certification, or simply seek to use it as a framework to review their existing programme and strategy. The arrival of an internationally agreed standard and vocabulary, imbues fresh professional credibility to the field of Knowledge Management. Moving it on from a street food market of disparate approaches, it provides knowledge managers with a brand-new kitchen, and a moment during which they can pause and consider the service that they provide to their organisations. The KM Cookbook uses the metaphor of the restaurant, its cuisine, owner, chef, staff, ingredients, menu-planners, customers – and a restaurant critic, to serve up ISO 30401 on a plate for the readers. The second half of the book illustrates aspects of the standard by exploring sixteen different examples of KM in practice around the world, through the reflections of their own 'KM chefs'. Case studies include: General Electric, World Bank, USAID, Schlumberger, PROCERGS, Médecins Sans Frontières, Transport for London, International Olympic Committee, TechnipFMC, Linklaters, Syngenta, Defence Science & Technology Laboratory, Financial Conduct Authority, Petroleum Development Oman, Saudi Aramco and MAPNA. This book will be invaluable for CKOs, CIOs, CEOs and knowledge and information managers seeking to gain professional recognition for their function and to review their approach within a new framework.

Making Money Through Buy-to-Let in South Africa Feb 19 2022 Just by reading and applying the easy-to-follow processes in Making Money Through Buy-to-Let in South Africa, you will realise that ordinary people can become extraordinary. This book explains why buy-to-let property investment is the only sensible opportunity to earn an inflation-linked, passive income for the rest of your life. It gives ordinary South Africans the hope that they might enjoy a financially secure retirement by building a substantial property portfolio, either when they start at a very young age or by supplementing their lifetime savings or pension pay-out at a later stage. Making Money Through Buy-to-Let in South Africa addresses all the questions would-be property investors would ask, including how to establish legal entities; determine which properties have the best return on investment; leverage other people's money and use very little of their own; obtain finance and register a bond; manage the transfer process; and select and manage the best tenants. Making Money Through Buy-to-Let in South Africa is written for the ordinary person, in everyday language, and guides you step by step through the entire process of property investment so that you, too, can become financially independent.

The Recovery Myth Jan 06 2021 This book provides an innovative re-examination of the 'recovery' phase of a disaster by one of the UK's most experienced disaster management specialists. Drawing on two decades' of work, the book develops an ethnography of the residents and responders in one flooded village and applies this to other cases of UK flooding, as well as to post-disaster recovery in New Zealand. The book shows how localised emergency responders find ways to collaborate with residents, and how an informal network uses nationally generated instruments differently to co-produce regeneration within a community. The book considers the plethora of government instruments which have been produced to affect recovery, including checklists, templates and guidance documents, and discusses approaches to community resilience and recovery risk management. The book appeals to students and scholars of Government and Public Policy, Disaster and Emergency Management, Community Resilience, Law, Sociology and Geography.

The Business Analysis Handbook Apr 09 2021 The business analyst role can cover a wide range of responsibilities, including the elicitation and documenting of business requirements, upfront strategic work, design and implementation phases. Typical difficulties faced by analysts include stakeholders who disagree or don't know their requirements, handling estimates and project deadlines that conflict, and what to do if all the requirements are top priority. The Business Analysis Handbook offers practical solutions to these and other common problems which arise when uncovering requirements or conducting business analysis. Getting requirements right is difficult; this book offers guidance on delivering the right project results, avoiding extra cost and work, and increasing the benefits to the organization. The Business Analysis Handbook provides an understanding of the analyst role and the soft skills required, and outlines industry standard tools and techniques with guidelines on their use to suit the most appropriate situations. Covering numerous techniques such as Business Process Model and Notation (BPMN), use cases and user stories, this essential guide also includes standard templates to save time and ensure nothing important is missed.

Embracing Complexity in Health Sep 14 2021 This detailed volume illustrates the transformative nature of systems and complexity sciences for practice, research, education, and health system organization. Researchers highlight the fresh perspectives and novel approaches offered by these interdisciplinary fields in addressing the complexities of global, national, and community health challenges in the 21st century. With the implications that these emerging fields hold for health still relatively underexplored, researchers from a wide variety of disciplines, including physiological, social, environmental, clinical, prevention, educational, organizational, finance, and policy domains, aim in this book to suggest future directions in health care and highlight recent advances in basic and clinical physiology, education, policy-making, and leadership. Among the topics discussed: Impact of genomic heterogeneity on bio-emergent properties Harnessing Big Data to improve health services Decision-making of women in violent relationships Co-producing healthcare interventions A socio-ecological solution to physician burnout Embracing Complexity in Health: The Transformation of Science, Practice, and Policy is a highly relevant resource to practitioners in the field, students, instructors, and policy makers, and also should find an engaged audience among health and disease researchers, healthcare planners, health system financiers, health system administrators, health services administrators, health professional educators, and other health professionals. The trans- and interdisciplinary natures of health and health care are fostering a broad discourse amongst all concerned with improving patient care in an equitable and sustainable way.

Transdisciplinary Engineering: Crossing Boundaries Oct 15 2021 The Concurrent Engineering (CE) approach was developed in the 1980s, based on the concept that different phases of a product life cycle should be conducted concurrently and initiated as early as possible within the Product Creation Process (PCP). CE concepts have matured and become the foundation of many new ideas, methodologies, initiatives, approaches and tools. This book contains the proceedings from the 23rd ISPE Inc. International Conference on Transdisciplinary (formerly: Concurrent) Engineering, held in Curitiba, Parana, Brazil, in October 2016. The conference, entitled 'Transdisciplinary Engineering: Crossing Boundaries', provides an important forum for international scientific exchange on Concurrent Engineering and collaborative enterprises, and

attracts the participation of researchers, industry experts and students, as well as government representatives. The 108 peer reviewed papers and keynote speech included here, range from theoretical and conceptual to strongly pragmatic works, which are organized into 17 sections including: Concurrent Engineering and knowledge exchange; engineering for sustainability; multidisciplinary project management; collaborative design and engineering; optimization of engineering operations and data analytics; and multidisciplinary design optimization, among others. The book gives an overview of the latest research, advancements and applications in the field and will be of interest to researchers, design practitioners and educators.

Inclusion for Primary School Teachers May 30 2020 This book will help you to understand what inclusion is, what it means for teachers, parents and the wider community and how to create an inclusive environment in your own classroom. By busting some myths and looking beyond the labels, Nancy Gedge believes that every teacher can improve their practice for every child – because what is good for special needs is good for everyone! That's what being an inclusive teacher means. Full of practical ideas and advice, this warm and inspiring book is an accessible introduction to inclusion for primary school teachers. It translates the SEND Code of Practice into practical classroom strategies covering topics such as: an inclusive classroom environment and what it looks like, the responsibilities of the teacher and how to set meaningful targets, plus lots of tips on how to get the best out of available support and intervention strategies. Nancy Gedge provides impassioned guidance in the form of real classroom anecdotes and tried-and-tested exercises together with a 'jargon buster' to help you decipher unfamiliar terms. NANCY GEDGE has been a primary school teacher for over 20 years, and is currently a SEND specialist in a mainstream school in Gloucestershire. Her knowledge in, and passion for, this area extends beyond the classroom – her eldest child has Down's Syndrome, and Nancy's inspirational blog, 'The Diary of a Not So Ordinary Boy', won the first TES Teacher Blogger of the Year Award in 2015.
