The Total CISSP Exam Prep Book Feb 29 2020 Until now, those preparing to take the Certified Information Systems Security Professional (CISSP) examination were not afforded the luxury of studying a single, easy-to-use manual. Written by ten subject matter experts (SMEs) - all CISSPs - this test prep book allows CISSP candidates to test their current knowledge in each of the ten security domains that make up the Common Body of Knowledge (CBK) from which the CISSP examination is based on. The Total CISSP Exam Prep Book: Practice Questions, Answers, and Test Taking Tips and Techniques provides an outline of the subjects, topics, and sub-topics contained within each domain in the CBK, and with it you can readily identify terms and concepts that you will need to know for the exam. The book starts with a review of each of the ten domains and provides 25 sample questions with answers and references for each. It discusses successful approaches for preparing for the exam based on experiences of those who have recently passed the exam. It then provides a complete 250-question practice exam with answers. Explanations are provided to clarify why the correct answers are correct, and why the incorrect answers are incorrect. With a total of 500 sample questions, The Total CISSP Exam Prep Book gives you a full flavor of what it will take to pass the exam.

Factfulness May 02 2020 INSTANT NEW YORK TIMES BESTSELLER “One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” – Bill Gates “Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don’t know what we don’t know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn’t mean there aren’t real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn’t enough. But I hope this book will be.” Hans Rosling, February 2017.
