**how gears work howstuffworks** Jul 14 2021 nov 16 2000 gears are used  
in tons of mechanical devices most importantly they provide a gear  
reduction in motorized equipment this is key because often a small  
motor spinning very fast can provide enough power for a device but not  
enough torque the force that causes an object to rotate on an axis or  
twist for instance an electric screwdriver has a very large gear  
reduction
